## Year 3 WEMT Course

The Year 3 WEMT program is undergoing a curriculum revamp that involves the inclusion of new modules and a significant increase in weekly commitment for students. The revised curriculum features a thinking skills component that prepares students for the 2024 OC placement test. The writing module is focused on the development of critical thinking and reasoning skills, as well as teaching effective writing organisation methods. English lessons concentrate on enhancing reading skills, comprehension, and the ability to answer multiple-choice questions. In mathematics sessions, students will master mathematical theories, principles, and formulas to solve problems with ease. The thinking skills lesson will challenge students with a range of practical and mentally stimulating questions to improve their problem-solving and critical thinking skills. Students can choose from one of the following WEMT courses that best suits their needs.
