What is Vocabulary Test?

Building a strong vocabulary is critical as it improves all areas of communication and leads them to succeed in future selection tests like OC and selective high school exam. Students with high vocabulary skills tend to have high comprehension scores in English and thinking skills tests.

For these reasons, Cyberschool is offering students the online vocabulary test each week. Students thoroughly study English module during the week and take the test to assess their knowledge of the meaning and use of those words.

The **Vocabulary Test** will expire after the term finishes. Please note the date and remember to access them when available.

What is the Online Term Test?

Year K EM course students will take the term tests in week 8 of each term. Term test is for assessment and subsequent reporting — generating valuable feedback for students and parents, this also will be the only indicator of next term's class allocation.
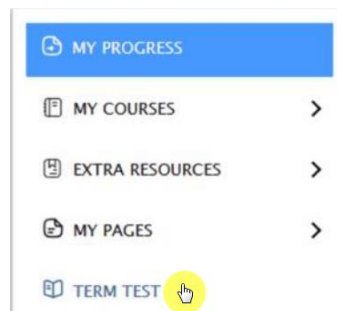

Students must complete <u>all tests</u> within the test opening period as there will be <u>NO catch-up tests</u> available after the test period.

Term test reports will be sent out to the parents by email at the end of the term. The report contains the information about total marks, achievement level (position), comprehensive comments on each test component and students' Special Online Quiz (S.O.Q) scores. Students must complete all S.O.Q by Week 9 to make the scores available on their report.

Students can access the term test review service during the first week of each school holiday period and review the (max 10) Maths term test questions they missed. They are encouraged to revise all questions it provides and build up a solid foundation before their next term's studies.
