What is the Online Term Test?

Year 2 WEMT course students will take the term tests in week 8 of each term. Term test is for assessment and subsequent reporting — generating valuable feedback for students and parents, this also will be the only indicator of next term’s class allocation.

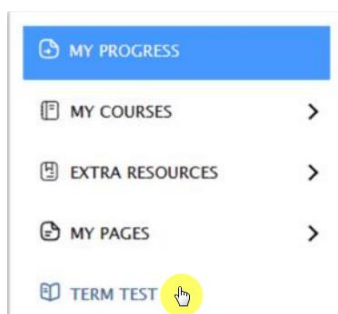

Students must complete all tests within the test opening period as there will be NO catch-up tests available after the test period.

Term test reports will be sent out to the parents by email at the end of the term. The report contains the information about total marks, achievement level (position), comprehensive comments on each test component and students’ Special Online Quiz (S.O.Q) scores. Students must complete all S.O.Q by Week 9 to make the scores available on their report.

Students can access the term test review service during the first week of each school holiday period and review the (max 10) Maths and Thinking Skills term test questions they missed. They are encouraged to revise all questions it provides and build up a solid foundation before their next term’s studies.
