### New Term 2 Schedule for Year 3 WEMT!

Exciting news! We're expanding our Year 3 WEMT sessions, giving you more flexibility to choose what works best for your child.

- ✓ Year 3 students can now join the new **Sunday** WEMT sessions at Strathfield Centre (Level 1, 8 Lyons Street, Strathfield).
- ✓ Year 3 WEMT Live **Zoom** sessions (Sunday & Tuesday) will be available to enrol. Find all the details on the next page.

### NEW\* OC FOUNDATION COURSE (OCFC)

The OC placement tests have been moved to an earlier date (1–3 May 2026) and will now be **computer-based test**. To help our Year 3 students prepare for this new test, a new **OC Foundation Course (OCFC)** will be introduced in Term 2. It will equip them with the skills and knowledge they need to succeed in the more challenging OC Trial Test Course (OCTTC) starting in Term 3. See details about the OCFC on Pages 3 to 5

## OC Foundation Course (OCFC) for Year 3

### Get Ahead and Gain Confidence for the 2026 OC Placement Test!

We're excited to introduce our updated OC exam preparation course, which now includes a new exam schedule and format designed for the 2026 OC placement test.

**The 2026 OC placement test will be a computer-based test (CBT) held on 1 – 3 May 2026.** To help students adapt to this new format and earlier exam date, we are launching our OC Foundation Course (OCFC) specifically for Year 3 students. This course aims to build a strong foundation in the various question types found in the OC exam, giving students the confidence they need to transition smoothly to the computer-based OC Trial Test Course (OCTTC) starting in Term 3.

### Course Structure

Students will alternate between workbook lessons and practicing exam-style questions from the OC placement test. The focus will switch weekly between Reading & Mathematical Reasoning and Thinking Skills & Mathematical Reasoning. **Additionally, the weekly class tests will be computer-based to familiarise students with this format.** The course will conclude in Week 11 with a computer-based term test, encompassing Reading, Mathematical Reasoning, and Thinking Skills.

#### Reading:

- Each reading week covers a different format: comprehension, poems, gapped texts, and multiple matching. Students receive workbooks with practice questions to solidify their understanding of the week's text type. Vocabulary lists are provided to boost language skills.
- After the workbook lesson, students take the **computer-based** class test on the specific format, followed by a review session where the format is analysed in detail, and test questions are explained.

#### Mathematical Reasoning & Stage 2 Maths:

- Each week, students will learn and master topics outlined in the Stage 2 (NSW K–10 Syllabus) Maths through the workbook. This is followed by the **computer-based** mathematical reasoning test and a review session for detailed explanations and reinforcement.
- Stage 2 Maths skills are crucial for both the OC Mathematical Reasoning Test and the Problem-Solving section of the Thinking Skills Test.

#### Thinking Skills:

- Each thinking skills week focuses on a specific topic: critical thinking or problem-solving skills. Students will work through their workbook, which includes practice questions to solidify their understanding of the week's topic.
- The workbook lesson is followed by the **computer-based** thinking skills test on the specific topic. Finally, a review session delves into the question type in detail, providing explanations for the test questions.

#### Term Test (Week 11):

Students will take the term tests covering Reading, Mathematical Reasoning, and Thinking Skills. This will allow students to experience the computer-based OC trial test format from Term 3 OCTTC.

**Remember:** While our course and experienced teachers provide excellent support, consistent effort from students and support from parents are key to achieving the best results.

### Boost your OCFC learning with Cyberschool:

The OC Foundation Course (OCFC) goes beyond classroom learning with Cyberschool, our online learning platform packed with helpful features, allowing students to practice the computer-based tests at home.

- Master Your Mistakes:** After class test reviews, Cyberschool lets you revisit missed questions in Reading, Mathematical Reasoning, and Thinking Skills during the specified service period. Retrying these questions helps solidify understanding and identify areas for improvement.
- Self-Check Your Work:** Access workbook answers on Cyberschool to check your work and learn from any mistakes. This reinforces learning and empowers you to independently review and improve.

- **Vocabulary Builder:** Put your vocabulary to the test! Cyberschool offers vocabulary practice tests during the specified service period, based on the provided vocabulary lists. This helps strengthen your language skills and prepare you for vocabulary sections in the exams.
- **Weekly CBT Practice:** Enhance your exam skills with weekly practice questions in Reading, Mathematical Reasoning, and Thinking Skills. Complete these within the designated service period. Regular practice on Cyberschool helps you become familiar with various question types and prepares you for the computer-based test format used in our OCTTC and actual OC exam.

**Important Notes:** The Cyberschool service is not included in the tuition fee but is provided free of charge by Pre-Uni New College. Please note that this service is subject to change without notice. It is available for a set period and will no longer be accessible once this period ends.

## Class Schedule

## Year 3 Writing Course (Wednesday)

This engaging Year 3 Writing Course helps your child blossom into a confident writer, ready to tackle any writing task with creativity and skill.

The course will help students unlock their inner storyteller and encourage them to express themselves uniquely. It aims to build a strong foundation in essential writing skills like grammar, punctuation, and spelling. Students will have a chance to explore diverse writing styles and craft informative reports, captivating stories, and persuasive arguments. We will help them become confident communicators and develop the skills to express ideas clearly and effectively.

The course progressively builds upon various aspects of writing, including:

- **Building knowledge and vocabulary:** Expand understanding and explore word choice through synonyms, antonyms, and different parts of speech.
- **Crafting sentences:** Master sentence construction, learn to join sentences effectively, and explore different sentence types.
- **Understanding structure and organisation:** Discover various writing formats like information reports, narrative stories, and persuasive writing.
- **Refining skills and techniques:** Develop proofreading skills, learn to summarise information effectively, and use appropriate punctuation.

Give your child the gift of confident communication. Enrol today!
