OC Trial Test Course (OCTTC) for Year 3

Get Ahead and Gain Confidence in the 2026 OC Placement Test!

The OC Trial Test Course (OCTTC) has been carefully redesigned to support Year 3 students as they prepare for the Opportunity Class (OC) placement test in May 2026. Through structured, exam-like practice, students will develop time management skills, reduce errors, overcome test anxiety, and maximise their performance on the real exam.

Why Choose OCTTC?

OCTTC equips students for exam success by familiarising them with question formats and simulating real test conditions, boosting confidence and readiness. Weekly exposure to exam-style questions ensures steady improvement, and performance tracking provides parents with insights into their child's progress and projected scores.

Course Structure

The 2025–2026 OCTTC program is tailored to the latest OC placement test format.

- ✚ **Computer-Based Testing:** OCTTC mirrors the OC placement test format, ensuring students are fully prepared for the online test experience.
- ✚ **Weekly Sessions:** Tests alternate between Reading (Week 1) and Mathematical Reasoning & Thinking Skills (Week 2) and mathematical reasoning, continuing until the OC exam in 2026.
- ✚ **Test Review:** Students collaborate with teachers and tutors to analyse challenging questions and refine problem-solving strategies.
- ✚ **Instant Reports:** Cyberschool provides real-time reports after each session for immediate feedback.
- ✚ **Cyberschool:** Test Review & Extra Practice for Computer-based Test (CBT) Skills. Strengthen your understanding with opportunities to review tests and practice additional test questions.
