### Term 2 Selective Trial Test (Test 27)

As the official Selective School Placement Test in May approaches, precision and composure become the most critical assets for our student.

The final session of the Selective Trial Test will be scheduled for the first week of Term 2. This concluding session features Reading and Writing Trial Test 27, the final piece of our rigorous preparation curriculum.

This session ensures that student walks into the exam feeling fully prepared, strategically equipped, and confident in their ability to succeed. Please review the timetable below to select the session that best suits your needs.

### Get Ready for High School with the New 6+ Course!

Starting high school can feel like a big step, but imagine your child entering Year 7 feeling confident, prepared, and ready to excel from day one. That's exactly what our 6+ (Six Plus) Course is designed to achieve.

This program provides students with a strong foundation in essential Year 7 English and Mathematics, helping them bridge the gap between primary and high school. Along the way, they'll also develop effective study habits, organisational skills, and learning strategies that support long-term academic success.

Whether your child is aiming to strengthen core skills, build confidence, or simply get a head start, the 6+ Course offers a structured and supportive pathway into high school. Further details are as follows:

SINCE 1992

## 6+ Course Outline (18 April – 4 July)

### 6+ English:

Prepare to dive deeper into English with our all-new **ELA Essentials for High School Preparation curriculum**. This streamlined and engaging program covers a wide range of foundational topics, helping students strengthen their analytical, writing, and comprehension skills—key abilities for success in Year 7 and beyond. Term 2 topics include:

- Mastering the Building Blocks: Nouns, pronouns, verbs, adjectives, and adverbs
- Sentence Structure and Variation: Phrases, clauses, affixes, and roots
- Literary Devices: Figurative language, comedic techniques, and poetic devices
- Persuasive Techniques: Developing strong arguments and persuasive writing skills
- Understanding Fiction: Plot elements, visualisation, summarisation, inference, and using evidence effectively.

### 6+ Mathematics:

Our 6+ Maths program is designed to give students a strong launchpad into high school maths. The course revisits essential Year 6 concepts while introducing key Year 7 topics, helping students build confidence and deepen their understanding through engaging and practical activities. Key areas of focus include:

- Geometry: Angles, constructions, and properties of 2D shapes
- Number Theory: Exploring number relationships and solidifying core concepts
- Extended Concepts: Directed numbers, the number plane, and introductory algebra
- Real-World Applications: Practical skills in probability, time, and mass measurement

Enrol in 6+ Course and equip yourself with the skills and confidence to excel in high school!
