Your Child's Strong Head Start for High School!

The jump from primary school to high school is one of the most significant transitions a young person will make. New teachers, new subjects, new expectations, and an academic pace that accelerates quickly. For many students, this shift can feel daunting, even overwhelming. Our Year 6+ Course exists to change that.

Designed specifically for students completing Year 6, our 6+ program bridges the gap between primary and secondary school in a structured, supportive, and genuinely engaging way. Rather than simply reviewing what students already know, the course introduces the concepts, skills, and study habits they'll encounter in Year 7, giving them a head start that builds real confidence, not just familiarity.

Through targeted English and Mathematics lessons, students arrive at high school with one enormous advantage: they've already done this before.

Whether your child is a strong student looking to stay ahead, or someone who would benefit from extra preparation before the transition, the 6+ Course meets every student where they are and takes them further.

The 6+ Course is ideal for students who:

- Want a head start on Year 7 English and Maths
- Feel nervous or uncertain about the high school transition
- Want to consolidate and extend their current skills
- Would benefit from learning effective study strategies
- Are strong students who want to stay ahead of the curve
- Want to begin Year 7 with confidence and clarity

6+ Term 3 Course - Outlines of Teaching

6+ English

Our 6+ English program goes beyond basic comprehension. We equip students with the skills to confidently conquer a variety of texts, from analysing and understanding them to crafting well-structured essays and insightful responses across different genres. This fosters language proficiency and confidence, preparing students for high school success.

Get ready to dive deeper with our **all-new "ELA Essentials for High School Preparation" curriculum!** This streamlined lesson tackles a diverse range of topics, solidifying your foundation in crucial analytical, writing, and comprehension skills. **Here are the key topics to be covered in Term 3:**

- ✓ Mastering the Building Blocks: Nouns, Pronouns, Verbs, Adjectives, Adverbs
- ✓ Sentence Structure and Variation: Phrases, Clauses, Affixes & Roots
- ✓ Literary Devices: Figurative Language, Comedic and Poetic Devices
- ✓ Persuasive Techniques: Mastering the Art of Argumentation
- ✓ Understanding Fiction: Plot Elements, Visualisation, Summarisation, Inference & Evidence.

6+ Mathematics

The 6+ Maths program is designed to give students a solid launchpad into high school mathematics.

We'll revisit and solidify key Year 6 concepts, while offering a fun and engaging glimpse into what Year 7 maths holds. Through interactive activities, your child will gain a deeper understanding of essential maths principles, boosting their confidence and making them feel comfortable with the subject.

Term 3 Focus Areas:

- ✓ Crack the code of number patterns and explore the world of algebra!
- ✓ Master the art of angles and unlock the secrets of 3D shapes – circles, cylinders, cones & spheres!
- ✓ Discover how shapes can be similar and the relationship between sides in Pythagoras' Theorem.
- ✓ Uncover the stories hidden in data and learn the language of chance with probability.
- ✓ Tackle inequalities and master algebraic techniques to become a problem-solving pro!
- ✓ Dive into extension problems and explore the exciting world of maths further!
